

Enhance Firefighters and Emergency Personnel Safety with Additional Ground Lighting

Code 3 now offers LED Ground Lighting that increases the safety of firefighters and emergency personnel. This economical and bright white LED light is ideal for night or low light scenes. Worry-free lighting is provided when the automatic turn-on feature is used.

Fitting in a standard 4 1/2" hole, this light is easy to install (surface mounted) and has only a 0.5 amp draw.

The LED modules have a 5 year warranty and meet required NFPA ground lighting specifications 13.10.1.2.
