

LSS222 Beacon Truly Meets Strobe and Halogen Performance!

Code 3 now offers the LSS222 LED Beacon that truly meets strobe and halogen performance. This beacon has two levels of unique LED reflectors that provide a focused signal for superior brightness. Polycarbonate lens construction also provides an excellent horizontal spread for easy identification of signal. With 39 flash patterns, including 4 simulated rotating patterns, this beacon provides plenty of options, including the ability to synchronize with the popular Code 3 XT Series. Low amp draw and bright output provide the ideal beacon for everyday use.

The LED modules have a 5 year warranty and meet SAE J845, Class 1 requirements. It is also California Title 13 compliant in red, blue and amber and ECE65 compliant in blue LEDs.

The LSS222 beacon is available in both permanent mount and suction/magnetic mount with a 9 foot straight cord.
