

High Functioning, Low Cost Undercover Emergency Visor Light

Code 3 introduces the all-LED Visor Flip Light for undercover operations. Easy to install on the passenger visor, this light provides a powerful punch of emergency light when needed. It can be hidden from view until the visor is flipped down—perfect for undercover activities. The combination of 26 flash patterns, low amp draw, an economical price and quick operation provide an ideal solution for undercover vehicles.

The unit has a 5 year warranty and meets SAE and California Title 13 specifications. Available with both clear and colored lenses that matches LED color.

The Visor Flip Light mounts with two Velcro® straps and a 9 foot lighter plug with an on/off switch.
