

Z3 Hub Installation Manual

The Z3 Hub can be used with Code 3 CAT-5 cables: T56649 (20 Feet), T56650 (2 Feet). Any off the shelf CAT-5 cable can be substituted for use with the Z3 Hub. Each CAT-5 connection in the Z3 Hub is identical. Any of the six connections can be used to connect different systems (Z3 Amplifier, Z3-SWIF, vLink, etc.) to the Z3 Hub.

Any combination of approved Z3 System products can be used to fill the six connections. (See block diagram below.)

For further questions, please contact our Technical Hotline @ (314) 966-2800.
