## 400 Series Compartment Lights

### Benefits

- Delivers a bright output without compromising space with its low-profile design
- Reduces eyestrain on the user when operating at night with the red light option
- Dual color models with integrated switch allow users to quickly alternate between red and white lighting
- Designed to meet a variety of needs with an integrated touch on/off switch or hardwire capability

### Design Features

- White single color and Red/White dual version
- Compact and slim interior vehicle compartment lights are designed for flush mount with bright white or white/red LED lighting
- Only 0.5" (12mm) high when mounted
- Four models are available for each length—with touch switch or without (auto on/off when vehicle door opens/closes)

### Specifications

- 2" W x 5.4" L (51 x 136 mm) small, 2" W x 11.8" L (51 x 300 mm) medium, and 2" W x 17.7" L (51 x 450 mm) large
- 12/24VDC
- IP65 Rated, R10 Certified
- 3-year warranty
