

SB48RR

## SB48 LED Beacon

### Benefits

- Delivers a bright, powerful warning signal in a low-profile, unique square housing
- Meets Upper Zone C NFPA specifications
- Outperforms competitor light beacons
- Simplifies installation with no need to remove lens to mount beacon
- Provides flexibility with multiple mounting options

### Design Features

- Blue, red and amber LEDs
- Any color combination pair meets NFPA compliance in upper zone C
- Cruise function and hi/lo intensity
- Top mounted LEDs provide 360 degree vertical and horizontal coverage
- 8 flash patterns plus steady burn
- Clear, amber, blue, and red lenses available

### Options

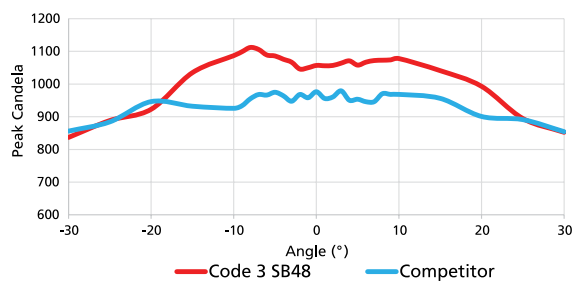

- Permanent and vacuum mount options available
- Stanchion mount bracket for side mounting

### Specifications

- 6.5" L x 6.5" W x 3.3" H (165.1 x 165.1 x 83.82 mm)
- 12/24VDC
- SAE J845 Class 1, California Title 13, NFPA, RoHS, IP67 rated
- 5-year warranty on LEDs

#### Brightness Level at Horizontal Off-Angle

Code 3 SB48 vs Competitor

Mounted on the top rear of an apparatus
